

VOTE *Yes* ON QUESTION 4! to bring Election Day Registration to Massachusetts!

Election Day Registration is a straightforward, secure, and proven reform that's already in place in 23 states—in some cases, for more than 50 years!

It lets eligible voters register and vote on Election Day, with identification and proof of residency.

VOTE YES ON QUESTION 4 TO:

- ✓ Improve turnout
- ✓ Eliminate arbitrary registration cutoffs
- ✓ Strengthen our democracy

WHY ELECTION DAY REGISTRATION MATTERS:

- **It helps eligible voters who miss the state's arbitrary cutoff for registration.** They just need to bring ID with proof of residency to their local polling station and sign an oath confirming eligibility, and they can register and vote on Election Day!
- **It helps registered voters who have moved, changed their names, been shifted to inactive status, or have a typo in their registration.** Instead of casting a provisional ballot that may take weeks to verify, they can bring ID, re-register and vote on the spot! They will remain registered for future elections.
- **It reduces the administrative burden on election officials,** who will have far fewer provisional ballots to review.
- **It's a proven reform that will increase turnout and strengthen our democracy without adding costs.**

Question 4 is endorsed by voting rights groups, labor unions, civil rights advocates, and more.
